

LONGEVITY & BRAIN HEALTH STACK

Support long-term cognitive health, memory, and mental clarity while promoting a youthful aging process. Ideal for those seeking to enhance brain function and combat the effects of aging.

BENEFITS:

- Improved focus and memory retention.
- Neuroprotection and enhanced brain health.
- Support for healthy aging and vitality.

USAGE INSTRUCTIONS:

Reconstitution:	Units Per Dose	Doses Per Week	Vial Duration
10mL	62.5 units	4X weekly	~4 weeks

16 doses per vial, 4 doses a week (Every other day), each vial is a one month supply

PEPTIDES IN THE LONGEVITY & BRAIN HEALTH STACK:

Peptide	Function	Per Vial	Per Dose
PEG-Klotho FG	Aids in cellular rejuvenation and anti-aging.	3.2 mg	0.2 mg
PEG-Epithalon FG	Enhances DNA repair and promotes longevity.	3.2 mg	0.2 mg
PEG-Cerebro FG	Supports neuroprotection and cognitive function.	3.2 mg	0.2 mg
NAD+	Boosts mitochondrial health and energy production.	1000 mg	60 mg
LYO MSC Exosomes	Delivers peptides precisely to their target areas for maximum efficacy.	44 Billion	2.75 Billion

Recovery & Performance Stack

Accelerate physical recovery and improve performance with a powerful combination of peptides supporting tissue health and repair. Ideal for athletes, active individuals, and anyone recovering from physical strain or injury.

Benefits:

- Faster muscle and tissue recovery.
- Enhanced physical endurance and reduced soreness.
- Improved resilience for active lifestyles.

USAGE INSTRUCTIONS:

Reconstitution:	Units Per Dose	Doses Per Week	Vial Duration
10mL	62.5 units	4X weekly	~4 weeks

16 doses per vial, 4 doses a week (Every other day), each vial is a one month supply

PEPTIDES IN THE RECOVERY & PERFORMANCE STACK:

Peptide	Function	Per Vial	Per Dose
PEG-GHK-Cu FG	Promotes tissue regeneration and skin health.	3.2 mg	0.2 mg
PEG-BPC157 FG	Accelerates healing of tendons, ligaments, and muscles.	3.2 mg	0.2 mg
PEG-TB4 FG	Reduces inflammation and improves muscle repair.	3.2 mg	0.2 mg
PEG-Sermorelin FG	Stimulates natural growth hormone release for recovery.	3.2 mg	0.2 mg
NAD+	Boosts mitochondrial health and energy production.	1000 mg	60 mg
LYO MSC Exosomes	Delivers peptides precisely to their target areas for maximum efficacy.	44 Billion	2.75 Billion

Mitochondrial Powerhouse Stack

Recharge your cellular energy and improve metabolic health with peptides designed to support optimal mitochondrial function. Perfect for those with busy lifestyles or seeking sustained energy.

Benefits:

- Consistent, long-lasting energy.
- Enhanced metabolism and endurance.
- Reduced fatigue and greater overall vitality.

USAGE INSTRUCTIONS:

Reconstitution:	Units Per Dose	Doses Per Week	Vial Duration
5mL	62.5 units	2x weekly	~4 weeks

8 doses per vial, 2 doses a week, each vial is a one month supply.

PEPTIDES IN MITOCHONDRIAL POWERHOUSE STACK:

Peptide	Function	Per Vial	Per Dose
PEG-MOTS-c FG	Improves energy metabolism and reduces fat accumulation.	40 mg	5 mg
PEG-SS31 FG	Protects mitochondria from oxidative stress and enhances function.	40 mg	5 mg
NAD+	Boosts mitochondrial health and energy production.	500 mg	60 mg
LYO MSC Exosomes	Delivers peptides precisely to their target areas for maximum efficacy.	22 Billion	2.75 Billion
